

AUGUST NEWSLETTER

Hello, Promise Kids!

This month we will start our discussion of our Wonderful World in week one with the land and the plants. God made the land and all the amazing things that grow in it. Our story focus is God made the land and plants, and they are wonderful. The children will hear (some for the first time) that God made the very land they are standing on! God made every food that they eat and every flower that they see. Everywhere they look, they can see something that God made.

Not only did God make the land and plants, but He made the water and the sky too! Week two's story focus is God made the water and sky, and they are wonderful. Every preschooler loves to play in water, but it may come as a surprise to them that God made all that water they love so much.

Week three is every preschooler's favorite one. It's time to talk about animals. They will have an awesome time mooing and quacking and oinking all while they learn about the amazing animals God made. The story focus this week is God made the animals, and they are wonderful. God made each and every animal unique and gave it certain characteristics to help it live.

In our final week of the month, we celebrate YOU! God made people! Isn't that awesome? We'll spend time looking in mirrors and talking about what makes each one of us different from the other. We'll hop on the feet God gave us and clap the hands He created. This is an incredible week where we look each child in the eye and say, "God made YOU!" The story focus for week four is God made people, and they are wonderful. People truly are God's most wonderful creation. We were made to be in relationship with Him and given special qualities no other creation was given. We are able to love and care for one another. We are able to share God's love with others. We are special because God made us that way.

ACTIVITIES for the Week!

It takes time to invest in your child and in so doing, we the parent have to be intentional with what we share.

MORNING TIME

When you go into your child's room say, "Good morning! Where's my wonderful [child's name] that God made? There he/she is!"

CAR TIME

As you drive ask your child, "Where is a tree? Where is a person? Where is a bird? Where is the sky? Where is the sun/moon?" As you help your child out of his/her seat say, "God made a wonderful world filled with wonderful things!"

BATH TIME

As you bathe your child say, "Where is your tummy? Who made your tummy? God made your tummy! Where is your head? Who made your head? God made your head! Where are your feet? Who made your feet? God made your feet!" Continue doing this throughout bath time.

Dear Promise Kids Parents,

We have an exceptional program that will engage the youngest of children as well as inspire pre-school age children to learn about their Heavenly Father. We want to provide the very best program for children on a Sunday morning. We need parents to get involved and serve one service, once a month.

Here are some reasons serving is beneficial:

- Partner with other parents so that parents don't have to parent alone.
- Build friendships that last a lifetime.
- Obtain tools for talking to your child at home.

If you are interested in serving contact me at:

mdavis@christfellowship.me

I look forward to serving with you!
